This reference book for students and senior teachers, offers a systematic and comprehensive treatment of prepositions and adverbial particles and is at the same time, through the inclusion of examples of uses throughout the book, a practical guide to the subject. If necessary, the examples are accompanied by brief explanations. The keywords in the sentences dealt with are organized in alphabetical order and the book is divided into six chapters (thus reaching some classification of the complex question of uses): 1. Cases; 2. Prepositions and Particles; 3. Nouns preceded by a preposition; 4. Phrasal Verbs; 5. Verbs followed by a preposition; 6. Words (excluding verbs) followed by a preposition.

Prepositions. Three wordbooks, Using Prepositions and Particles, are available providing extensive material on prepositional use. This reference book is intended as a practical guide to the use of adverbial prepositions and particles. Simple examples of uses are given throughout the book. Brief explanations accompany the examples whenever necessary.

Students abroad than any other aspect of the English language. The choice of preposition or particle following a given verb, noun, adjective or adverb can be determined only after constant practice. An important aspect of the subject is illustrated by the phrasal verb, in which an adverbial particle combines with a verb to form a collocation with a new meaning. A phrasal verb should be considered as a unit, because its meaning can rarely be inferred from a knowledge of the verb and particle. Prepositional phrases are often fixed; changing or adding a word would suffice even sonem a. iArarepucer es ofAn e lev*A*dargased otien on ofAn&Accefni amu met ³Acov, euqol, edafalilicf sianc moc ossi rarelot asep ⁴Acov euq arap otnemacideim mugla iAh sam, recrapased rod a rexf somassop ofAn euq ed odem ohnet ue, euqol, rovaf rop, otinematart ed asem an ranilcer e asimac aus romover edop ⁵Acov, adariter moc art a ahnev, aias, arohme iAv, arithmem a atised, abus 1, rinfedD, siamsprof jm*C*Abmat⁶ maos etnemalarq euq, sodahnilbus sobreve so moc sesarf sad stariut siam otium maoes ten ed satissi sad sobreve so moc sadavargi sepiArev sa, lareq odonu mu eD :atnO, racifirev arap JEa eAf aAuO, attla zot me esarf adac ed ofArev aus agID, rasu arap, lopmet (aterrro labres amrof a raredisnoc uo sarvalap sad medro a rareto oir)Asseen res edop - amrof amsem ad esarf ad odacifingis o abhetnaM, sesarf sad amu adac me sodahnilbus sarvalap sa riutitshus arap obver, mu ahloc*E*, socid*C*Am sorxetmek meââ sodasut ofAn oxibas sepiAisoperp uo salucAtrap moc sobreve sO :sepiAisaurtsnl, ratnemu*A*, aigrene ed sievAn sues ratnemu arap, oglu reuq allE jamac ad aiaSt, s*C*Abhane sad airioan ad etes s.
